FORTRESS PAPER ANNOUNCES THIRD QUARTER 2008 RESULTS

Vancouver, British Columbia, November 7, 2008 – Fortress Paper Ltd. (“Fortress Paper” or the “Company”) reported net income of \$2.3 million for the third quarter of 2008 on sales of \$45.2 million or basic and diluted earnings per share of \$0.22. For the third quarter of 2007 the Company reported net income of \$0.2 million on sales of \$34.1 million or basic and diluted earnings per share of \$0.02. In the second quarter of 2008 the Company reported net income of \$3.4 million on sales of \$49.1 million or basic and diluted earnings per share of \$0.33.

Chad Wasilenkoff, Fortress Paper’s chief executive officer stated: “Our results have shown significant growth in comparison to prior year figures which is a reflection of the success of our capital upgrades and focus on efficiencies and higher margin products. We are in a net cash position, our balance sheet and profit remain strong which are even of more significance in these challenging times with reference to the financial and credit crisis.”

Highlights

EBITDA was \$6.2 million or 13.7% of sales for the three months ended September 30, 2008. For the three months ended September 30, 2007 EBITDA was \$2.2 million or 6.5% of sales. For a reconciliation of net income to EBITDA please see the Management’s Discussion and Analysis available on SEDAR at www.sedar.com. The increase in EBITDA relative to the prior year comparative period was primarily due to capacity increases at both our mills and the continued shift towards higher margin products, particularly more non-woven wallpaper base at the Dresden mill. Increased input costs have been more than offset by improved efficiencies.

EBITDA is defined as net income before interest, income taxes, depreciation, amortization, non-operating income and expenses and stock based compensation which the Company considers to be a key performance indicator. EBITDA is not a generally accepted earnings measure and should not be considered as an alternative to earnings or cash flows as determined in accordance with Canadian generally accepted accounting principles. As there is no standardized method of calculating EBITDA, the Company’s use for the term may not be comparable with similarly titled measures used by other companies.
